Safe solutions for the hotel industry

# SAFETY AND COMFORT FOR YOUR GUESTS

Room safes | Laptop safes | Top open safes | Drop-in and deposit safes |  
Locker systems | Key safes | Back office safes

*„Years of experience  
has shown us  
how we can support  
the hotel industry.  
You can be  
sure of that.“*

**CHRISTOPH HARTMANN**  
Founder and Chairman of the Supervisory Board  
HARTMANN TRESORE GmbH

**Dear customer,**

Everyone has been a guest at some point - and that's why we all know where we really feel at home as a guest. A friendly welcoming smile, a comfortable ambience and a good feeling of security are essential aspects for us to feel at home temporarily. And this is where we at HARTMANN TRESORE come into play. We have been providing a home for the great need for security since 1983.

We do our best every day to ensure that everyone feels completely safe - you as a customer as well as your guests. We want to give everyone the peace of mind of knowing that everything is safely stored at all times, from your laptop and guests' jewellery to your daily takings and essential documents. And with the high level of convenience and suitability for everyday use that you expect from Germany's number 1 - and your guests expect from your hotel.

We see ourselves not only as a provider of secure hotel safes, but rather as your holistic, reliable partner who offers you all-round solutions and services from a single source. Because we know exactly what is important for you in your industry and are at your side with our personal experience and expertise.

So that you - and your customers -  
can feel **that they are in good hands.**

**Yours sincerely,**  
**Thomas Bunte**  
Head of Key Account Management, Hospitality & HealthCare  
HARTMANN TRESORE GmbH

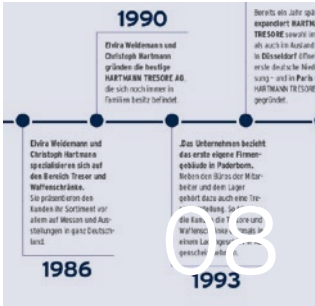

# What can we do for you?

As experts in minibars, room safes and safes, we have already equipped the international hotel industry - from global hotel chains to small guesthouses - with more than 500,000 high-quality solutions.

**THOMAS BUNTE**

with HARTMANN TRESORE GmbH for more than 30  
years, and the Hospitality & Health Care team

#### **HARTMANN TRESORE IS THE LEADING BRAND BRAND FOR ALL ...**

... who are looking for a quality safe or a high-quality minibar. The roots of our company have grown from a solid German tradition of craftsmanship. The 'Schmiede und Stellmacherei Hartmann' was founded over 150 years ago in Westphalia. In 1986, the company specialised in safes and gun cabinets.

Today, we are one of the leading suppliers of quality safes with locations in Germany, other European countries and the Middle East. We see ourselves as a high-performance company that is committed to professionalism and reliability in all areas and that you can trust in every respect.

Our long-lasting products are characterised by the use of high-quality materials and precision workmanship. Quality is the basis of our actions, reliability the foundation of our partnership.

We also specialise in solutions for the hotel and catering industry. For hoteliers, we offer all types of minibars and hotel safes at an optimum price-performance ratio from a single source.

#### **Our services are also impressive:**

- Permanent delivery availability thanks to Europe's largest safe warehouse
- Extensive range in various price and performance classes for homes of all sizes
- Personal support - from the first non-binding consultation to the complete planning and order fulfilment to a contact person for all questions long after the purchase
- Development of customised solutions and special constructions according to your personal requirements and needs

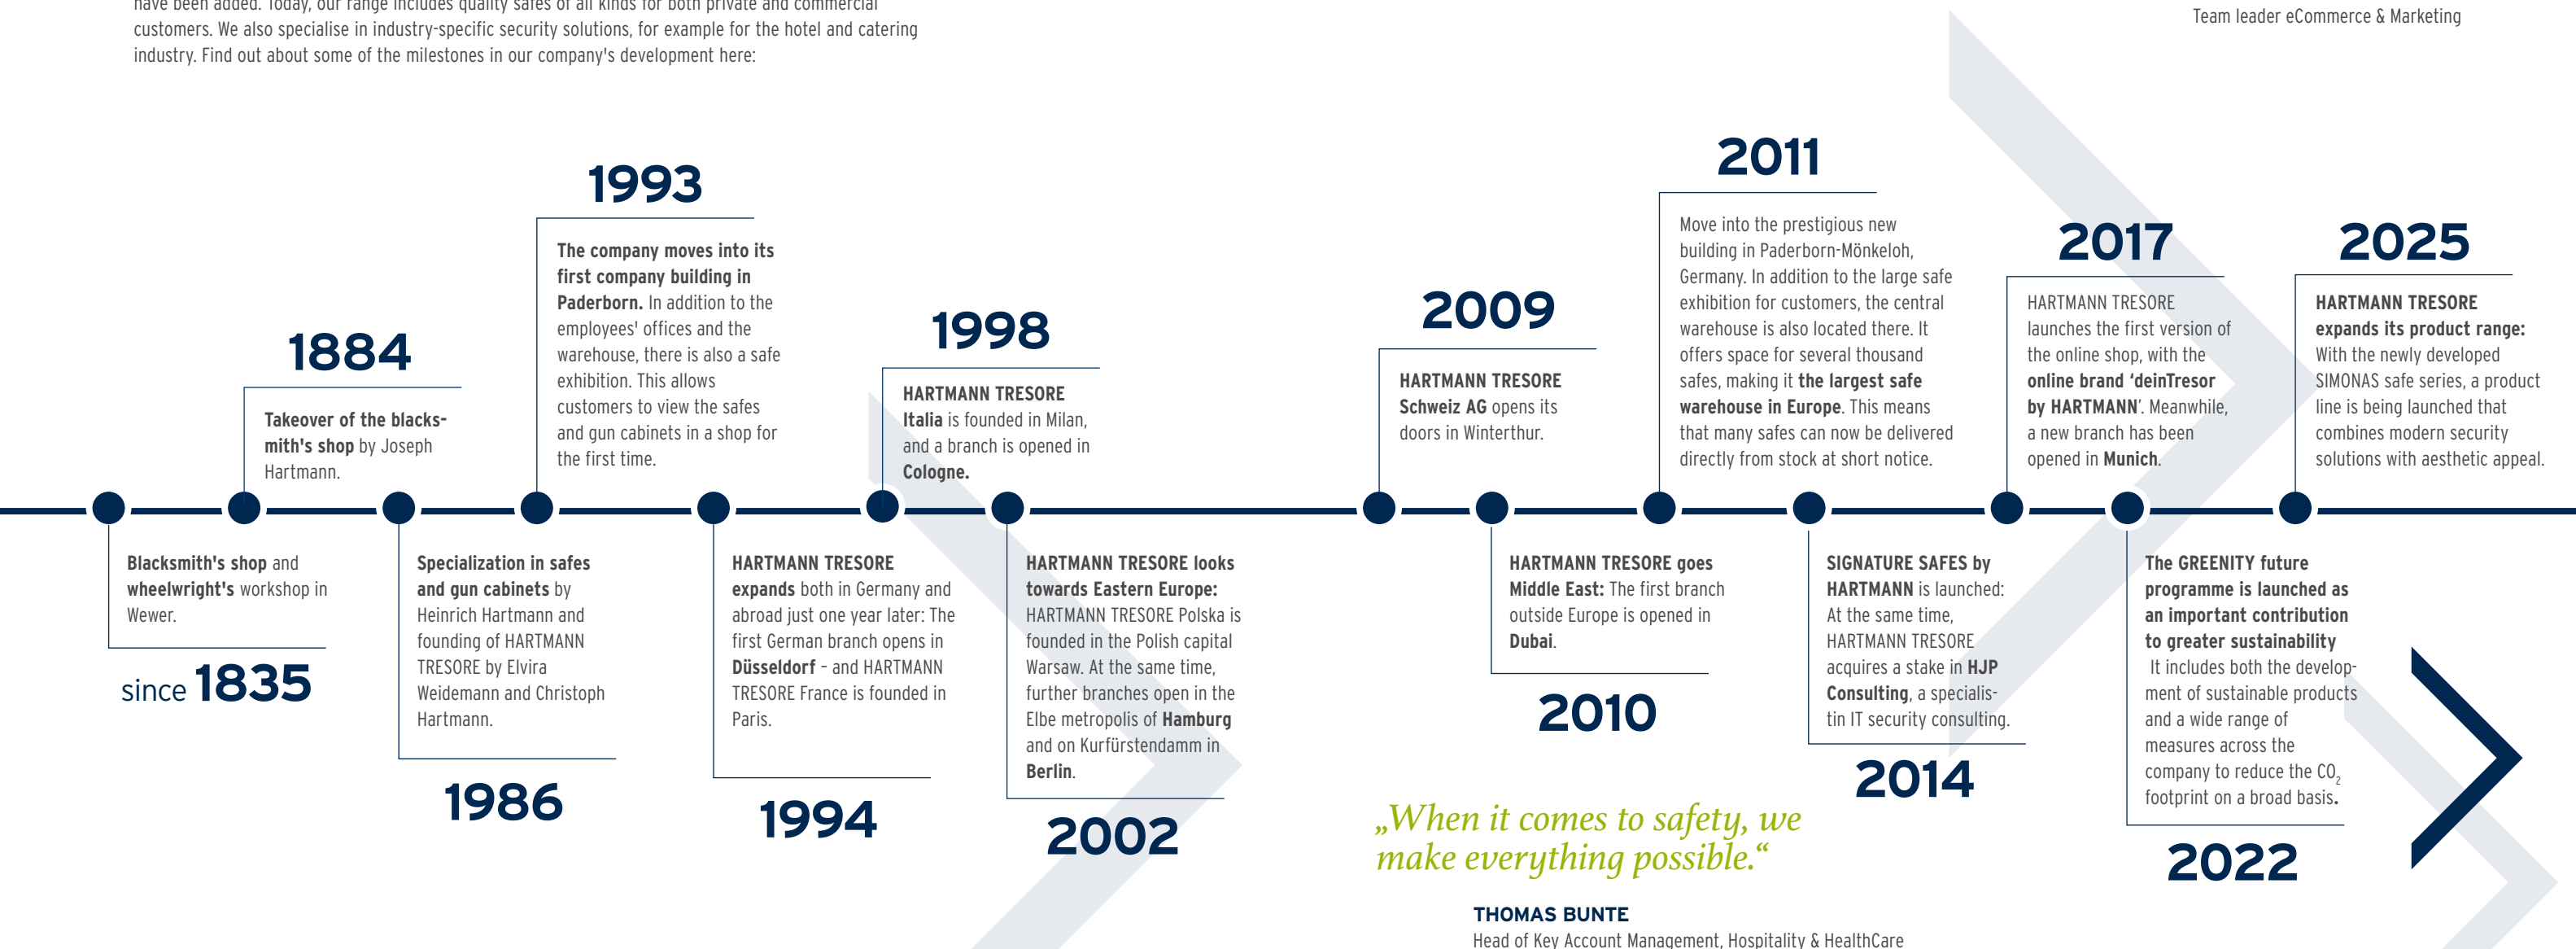

*You can find out more about our company, our products  
for your safety and our excellent service at*

# WE BREAK NEW GROUND FOR YOU EVERY DAY.

We have a long tradition of innovation. In order to always be able to offer you new ideas and convincing products, we have continuously developed since our beginnings. New product areas for new customer groups have been added. Today, our range includes quality safes of all kinds for both private and commercial customers. We also specialise in industry-specific security solutions, for example for the hotel and catering industry. Find out about some of the milestones in our company's development here:

Room safes

# HERE IS QUALITY AT HOME.

**Our room safes** are available in numerous sizes and equipment variants. All room safes are intuitive to use, reliable and trouble-free in operation. Simple installation and uncomplicated handling guarantee universal solutions for all your requirements.

Our room safes are equipped with an electronic emergency opening option or an emergency key so that your authorised staff can help quickly if a guest forgets their code. All models also have an audit function as standard, which you can use to read out the operating procedures and transfer the data to a PC or laptop. We offer the equipment required for this as an accessory for every series.

## Casino Line series

# THE NEW GENERATION OF SMART ROOM SAFES.

- › Use of secure data transmission via **RFID standard**
- › Compatible with the **RFID technologies** MIFARE, MIFARE Classic, NTAG, FeliCa and DESFire
- › **Choice for guests:** locking and opening via RFID room card or classically by code entry
- › Flat, elegant input unit that combines all functions
- › Modern, **elegant design** with large, illuminated keypad and LED lighting
- › Emergency opening via mechanical **master key**, individual **master code** or via the optionally available **master card** for exact logging of processes

**It couldn't be more convenient:** the Casino Line safes can be operated with almost all RFID room cards. They are also equipped with an illuminated keypad. This means that guests who prefer traditional operation using a PIN code can stick to their usual method. There are also several ways for your authorised staff to unlock the safes in an emergency. With the optional master card, it is even possible to determine exactly which employee has carried out an emergency opening and at what time.

*„State-of-the-art comfort  
for your guests:  
Safe operation  
by room card.“*

Digital laptop safes

Drop-in and deposit safes

# HERE YOUR CASH IS IN SAFE HANDS.

**Our drop-in and deposit safes** are the ideal solution for securing large amounts of cash quickly and easily, even while your business is running. Envelopes containing cash or wallets can be thrown into the safe by any of your employees via a drawer or flap without having to open the safe. The deposited valuables are stored inside the safe until they are removed by the authorised person - optimally secured by a retrieval lock.

*„Make your own  
picture of our  
selection.“*

Drawer safes

# Series Lukas | Dominik

Our drawer safes from the Lukas/Dominik series are an ideal solution for securing large amounts of cash quickly and easily.

GENERAL PRODUCT DETAILS

- > Burglary protection: based on security level B according to VDMA 24992 (05/95)
- > Body double-walled on all sides
- > Door leaf 6 mm, door double-walled, 80 mm
- > Door and body with high-quality fire protection insulation in accordance with DIN 4102

## Locker systems

# AN EXTRA STAR FOR SAFETY - AND AND FLEXIBILITY.

Room safes offer guests a pleasant level of convenience, but your visitors should still have a **central locker system** available for particularly valuable items or large amounts of cash. This is best monitored by your staff at all times, as the legislation is clear: as a hotelier, you are responsible for items that your guests bring into the hotel.

Our locker systems can be flexibly customised to your requirements: You are free to choose the number and size of compartments as well as the equipment - e.g. insert slots or insert cassettes. On request, the systems are also available in a prestigious stainless steel design, which is particularly suitable for your reception area.

*„Have your  
personalised locker  
system created“*

Customised solutions

# Locker systems stainless steel

Locker systems in stainless steel for a service that your guests are sure to appreciate. Let our specialists draw up a non-binding offer for you! External dimensions, number and size of compartments, locking technology, etc. are customised to your requirements.

GENERAL PRODUCT DETAILS

- Each locker door has a thickness of 3 mm.  
The front of the door is made of matt brushed stainless steel.
- Numbering: The numbering is done with stickers, which can be freely positioned.
- Panelling: For the entire locker system, panelling options are available in stainless steel or in a standard paint finish or a special paint finish of your choice.
- Hotel/bank lock with pre-locking and re-locking.  
Hotel locking: 3 keys, guest locking: each compartment different locks, 3 keys per compartment. Hotel and guest Hotel and guest locking via profile half cylinder.

EQUIPMENT OPTIONS

- Insert cassettes for every compartment size up to a compartment height of 400 mm
- Insert slot with flap and return stop from 400 mm compartment height
- Side and top end panels
- Stainless steel panelling
- Special paint finish

„Please request  
your individual  
drawing from our  
experts.“

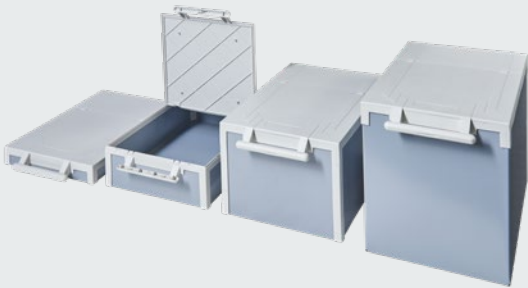

Locker with insert cassette

Sturdy, high-quality stainless steel housing

Locker system with different locker heights

Plastic cassettes in exactly the right sizes

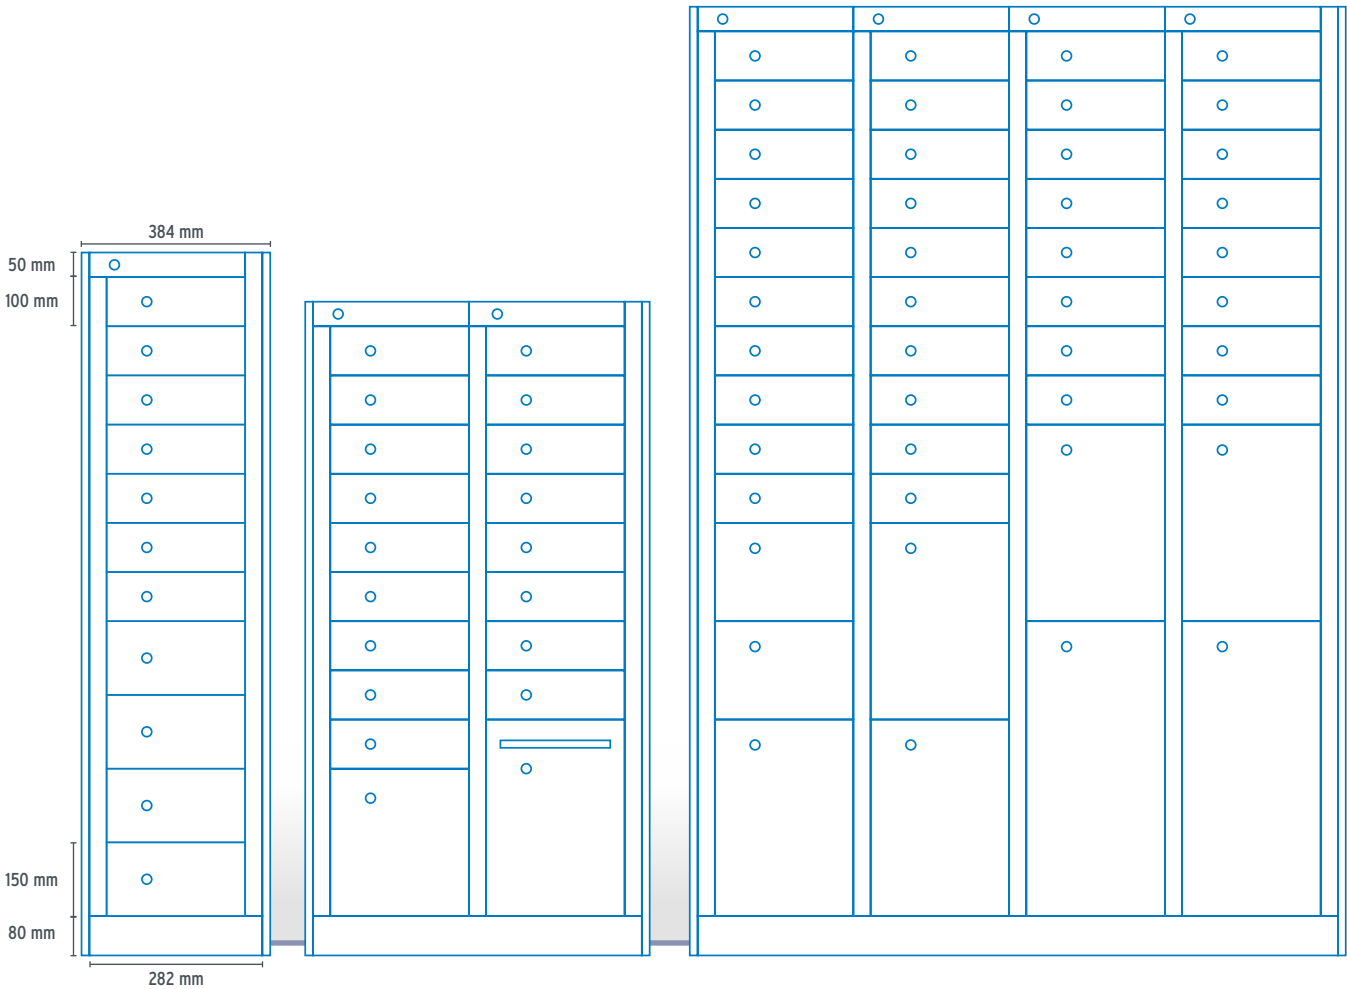

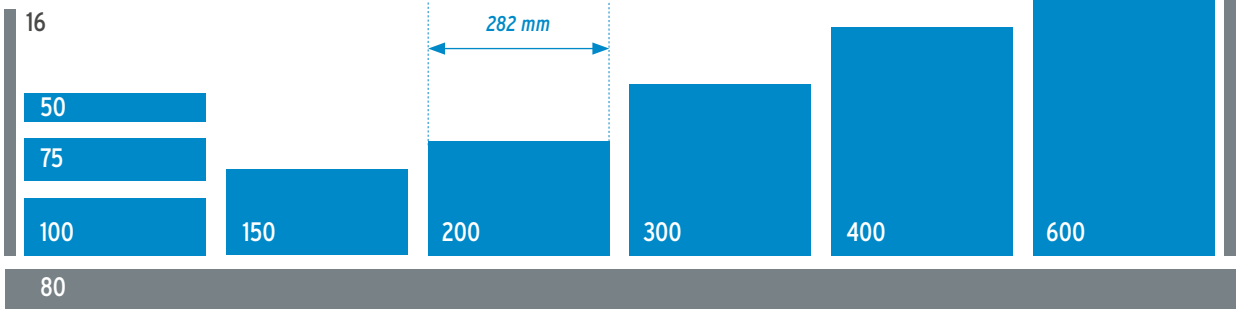

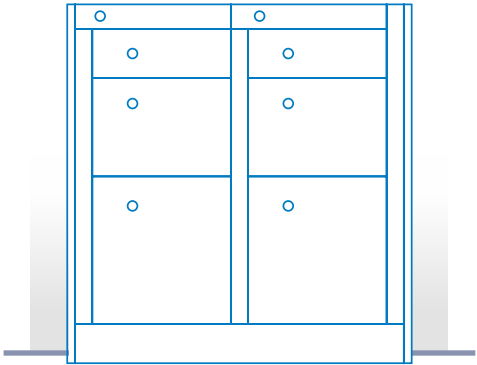

➤ Let our specialists draw up a non-binding offer for you! External dimensions, number and size of compartments, locking technology, etc. are customised to your requirements.

CONSTRUCTION EXAMPLES

The possible combinations are virtually unlimited, so that you can find the solution that is perfectly customised to your requirements.

POSSIBLE MODULES

Various **shelf heights** between 50 and 600 mm are available. Other compartment heights such as 350 mm are possible on request. The compartment **width** of all modules is 282 mm with a compartment **depth** of 384 mm. Each locker system is framed at the top and on both sides by a 16 mm **end panel**, the height of the **lower panel** is at least 80 mm.

Customised solutions

# Locker systems varnished

Hotel Manager Hannes Dreher, Crowne Plaza Hamburg

*„With such an experienced partner we feel completely at ease.“*

In a **premium hotel like the Crowne Plaza**, our customers expect the highest standards in all respects. Whether on a business trip or holiday, for one night or several weeks: Our guests always want to feel well looked after in their temporary home. This includes being able to get a drink or snack at any time of the day or night - without having to leave their room, of course. We also knew that we could rely on a renowned partner with decades of experience for our minibar equipment.

We were immediately impressed by their promise of 'safe and sound'. Together, we found the perfect solutions for our almost 300 rooms, which fulfil our customers' demands for design and functionality as well as the requirements of a hotel business in terms of quality and reliability. In a nutshell: I felt well advised and completely safe with HARTMANN TRESORE right from the start.

Europe's largest vault warehouse is located in Paderborn

RELIABLE PARTNER BEFORE  
AND AFTER THE PURCHASE

„For you  
we make  
everything  
possible.“

We not only offer you high-quality minibars, modern room safes and certified safes of all kinds, but also a comprehensive all-round service from a single source that starts well before the purchase. Because we want you to get exactly the solution that perfectly meets your requirements. We are also happy to visit you for an on-site inspection to ensure that everything runs smoothly during delivery and installation. When you choose minibars and safes from HARTMANN TRESORE, transport, installation and anchoring play an important role. Our entire team guarantees fast, on-time delivery to any location you desire.

After the purchase, we will of course continue to be there for you. If the worst comes to the worst, you can rely on a rapid supply of spare and replacement parts. If you have any questions, please contact our service team directly. They are specially trained in your industry-specific requirements and will be happy to help you.

**Service**  
If you need a spare part for a minibar or other accessories, our service can fulfil your wishes.

**Logistics**  
Many minibars and safes can be delivered quickly from our central warehouse in Paderborn, even in large quantities.

**Delivery**  
We are also the right address for particularly difficult or extensive transport tasks - no matter where you need to go.

EMERGENCY? URGENT PROBLEM?  
OUR SUPPORT TEAM IS HERE TO HELP!

Our support team will be happy to help you with technical questions or problems relating to your minibar or safe at any time.
